

Question No 17 ☆	Answer
What is meant by VMC?	Visual Meteorological Conditions [See figure below]

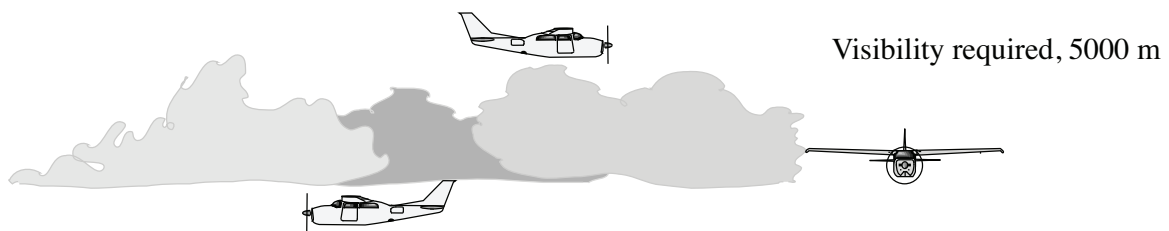

Reference: AIP ENR 1.2 para 2 (ATC AU-502 para 3.1 to 3.6 ATC AU-804 para 3.2)

BELOW 10000' TO MAINTAIN VMC YOU MUST BE 1000' ABOVE OR 1000' BELOW CLOUD AND 1500m HORIZONTALLY FROM CLOUD AT YOUR LEVEL.

EXCEPT THAT: IF YOU ARE IN CLASS G [uncontrolled] AIRSPACE AND BELOW 3000' ABOVE SEA LEVEL OR 1000' ABOVE GROUND LEVEL WHICHEVER IS THE HIGHER, YOU MAY REMAIN CLEAR OF CLOUD [NO DISTANCE REQUIREMENT].

Providing you have a radio and are using it.

IF YOU ARE IN CLASS D AIRSPACE [Controlled but without radar.]
